

## Promoting a Carbon Neutral Economy

### Hadi Dowlatabadi

*Canada Research Chair in Applied Mathematics and Integrated Assessment of Global Change, Institute for Resources Environment and Sustainability, University of British Columbia*

How can we better promote a carbon-neutral economy? Join us for an engaging discussion with Hadi Dowlatabadi, Canada Research Chair in Applied Mathematics and Integrated Assessment of Global Change in the Institute for Resources Environment and Sustainability at The University of British Columbia. Dowlatabadi will discuss the rewards and lessons he has learned over the past decade while working with various companies and organizations who work toward carbon neutrality.

Hadi Dowlatabadi completed his BSc and PhD in physics at The University of Edinburgh (1980) and University of Cambridge (1984). He was awarded the Warren Weaver Fellowship in 1989 by The Rockefeller Foundation when he designed and launched LEAD, a company which enables aspiring and established leaders to explore the implications of sustainability for their organizations.

**Friday, November 13, 2015**  
**11:30 a.m. – 12:30 p.m.**  
**Wrigley Hall Room 481 (ASU Tempe Campus)**
