

## Sustainability @ ASU

### ASU Reception with the American Meteorological Society

Join American Meteorological Society (AMS) Annual Meeting attendees for a free evening reception at the Arizona Science Center, sponsored by Arizona State University. The reception is a chance to interact with AMS climatologists and will feature a demonstration of Water Sim , an interactive decision support tool for water resources developed by ASU's Decision Center for a Desert City.

One of the evening's highlights will be a new AMS program called "23|5 Talks." This hour-long set of public talks will follow the format of the well-known Technology, Entertainment and Design (TED) talks and feature thought-provoking perspectives from AMS scientists on weather, water and climate. Speakers will cover topics of specific interest to Phoenixians, including extreme weather events, water and energy nexus.

This event is co-sponsored by the Julie Ann Wrigley Global Institute of Sustainability, Decision Center for a Desert City, ASU School of Geographic Sciences and Urban Planning and Arizona Science Center.

**Please RSVP as seating is limited**

**Monday, January 5, 2015**

**7 p.m. - 10:30 p.m.**
