

Water and Sustainability: 21st Century Realities

Jay Famiglietti

Professor of Earth System Science, University of California-Irvine

Hydrologist Jay Famiglietti is the Senior Water Scientist at the NASA Jet Propulsion Laboratory. He and his team have been researching and communicating about water and climate change—in academics, business, government and to the general public—for over 25 years.

In this talk, Famiglietti will discuss his work using satellites and computer models to track freshwater availability worldwide and to project the impacts of availability on our water security.

Wednesday, August 26, 2015
12:00 - 1:15 p.m.

Wrigley Hall, Room 481
Arizona State University, Tempe campus
(Lunch will be provided.)
