

Energy Efficiency on the Personal and Urban Scale

Mick Dalrymple

ASU Project Manager, Energize Phoenix

See how you can drive your roommates crazy and also change the world through energy efficiency—at home and on a city scale—in this fun and informative talk about how low the low-hanging fruit may actually be.

Mick Dalrymple, LEED AP BD+C and HOMES, BPI and ICC Residential Energy Plans Examiner, breathes energy efficiency as the ASU project manager for Energize Phoenix. He is responsible for managing ASU's research on the \$25M federally-funded program to upgrade the downtown Phoenix core for significant energy efficiency savings.

This event is part of ASU's "No Impact Week," a week-long series of events and experiments in low-carbon living. Register to receive daily emails on how to participate in the No Impact Experiment.

Thursday, September 29, 2011
11:30 a.m. – 12:30 p.m.

(lunch will be served)
Wrigley Hall, Room 481
