

The Future of Nukes: Pandora's Promise or Peril?

Michael Shellenberger

President, Breakthrough Institute

John Hofmeister

*Julie A. Wrigley Private Sector Executive in Residence for Sustainability
School of Sustainability, ASU*

Ariel Anbar

*Senior Sustainability Scientist, Global Institute of Sustainability, ASU
Professor, School of Earth and Space Exploration, ASU
Professor, Department of Chemistry and Biochemistry, ASU*

Jennifer Richter

*Visiting Professor, School of Social Transformation and Social Change
Consortium for Science, Policy and Outcomes, ASU*

Clark Miller

Moderator

*Associate Director, Consortium for Science, Policy and Outcomes
Associate Professor, Department of Political Science, ASU*

This Case Critical will spark conversation about thorium reactors and their potential to help end our dependence on fossil fuels. Panelists include Michael Shellenberger, featured in the controversial film *Pandora's Promise* and a thought leader in climate-change policy and energy options; Ariel Anbar, a biogeochemist interested in the past and future evolution of Earth as a habitable planet; John Hofmeister, the former president of Shell Oil now focused on energy security solutions for the nation; and Jennifer Richter, whose work centers on nuclear energy and waste technologies and policies.

The Global Institute of Sustainability's Case Critical series responds to time-sensitive sustainability concerns at the local, national, and global level. Experts swiftly mobilize for solution-based discussions focusing on the environmental, social, and economic implications of high-stakes threats and breaking news issues.

Thursday, December 5, 2013
12:00 – 1:30 p.m.

Wrigley Hall, Room 101
(lunch will be provided)
