

# Mexico's Energy Profile

## Luis Farías

*Senior Vice President for Energy and Sustainability, CEMEX*

In this talk, Farías, in charge of global building supplies company, CEMEX's sustainability, will discuss Mexico's energy structure and the conditions needed to grow the country's energy supply.

After obtaining his doctorate in metallurgy from Imperial College, Farías spent over 30 years in the energy field in the steel and cement industries. For the last 10 years, he has been actively involved in developing small- and large-scale renewable energy projects around the world.
