

A WRIGLEY SERIES LECTURE

A DECLARATION OF ENERGY INDEPENDENCE

How Freedom from Foreign Oil Can Improve National Security, Our Economy, and the Environment

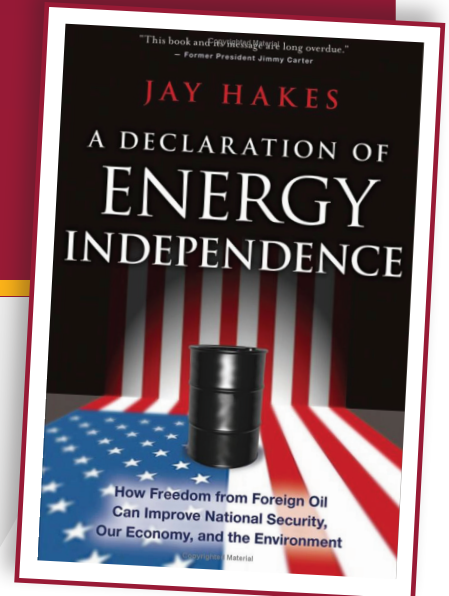

Presented by the Wrigley Lecture Series on Sustainability
Co-Hosted by School of Public Affairs

Energy debates in Washington are disquieting to the careful observer. Economic myths replace science as the basis of decision making. The right believes that governmental controls disrupt energy markets while the left warns that special interests are aiming to thwart the national interest. Neither simplification stands up to economic analysis, baffling the average citizen. Yet we are all searching for solutions that lead us towards energy independence.

• Dr. Jay E. Hakes

Director, Jimmy Carter Presidential Library and Museum,
Former Head of Energy Information Administration at US
Department of Energy

Thursday, September 11, 2008 | 3:00 PM

Global Institute of Sustainability, Rm. 481
