

Can Pixels Tell Climate-Related Stories?

Soe Myint

*Professor, School of Geographical Sciences and Urban Planning, ASU
Senior Sustainability Scientist, Global Institute of Sustainability, ASU*

In this talk, Myint will discuss the use of remote sensing, a tool used to observe the earth's land surfaces, to better understand climate change. Myint has over 20 years of experience in using remote sensing, geographic information systems, and spatial modeling approaches to investigate land-use and land-cover change in relation to environmental issues.

**Tuesday, March 4, 2014
12:00 - 1:15 p.m.**

Wrigley Hall, Room 481
Arizona State University, Tempe campus
(lunch will be provided)
