

MAKING THE MOST  
*of Your*  
SUSTAINABILITY INTERN

Sada Gilbert  
Internship Coordinator

# Keys to a great internship experience:

- Clearly defined expectations
- Established learning outcomes
- Dedicated intern supervisor
- Like any employment situation, this should be a good fit between the student and the organization

## Keys to a great Sustainability internship experience:

- “We all *do* sustainability”
- Students can put classroom theory into direct practice.
- Sustainability comes in so many forms that an internship can go in different directions.
- Students in the School of Sustainability learn to view systems and understand how concepts are connected – they may bring you new ideas.

# Internship Logistics

- Internship description form and review
- Paid vs. Unpaid
- Fair Labor Standards Act
- ASU Student Placement Agreement
- Posting your internship
- Educational contract
- Site visits

What works?

How can I help improve the process?
