

Trees for People:

Developing a Tree and Shade Plan for Your Community

Photo: Lysistrata "Lyssa" Hall

You're Invited

Date: Wednesday, March 27, 2013

Time: 7:30 a.m. - 1:00 p.m.

Location: Mesa Arts Center
Contemporary Arts Building
Dobson Lecture Hall
1 East Main Street
Mesa, AZ 85201

Who Should Attend?

Municipal and tribal community professionals in planning, landscape architecture, parks and recreation, sustainability, stormwater management, engineering and other departments associated with green infrastructure management.

Registration?

To register early for this free workshop, please email your name, title, organization, phone number and email address to snevents@asu.edu by Monday, March 18th. Seating is limited.

Why a Tree and Shade Plan?

Street, park and shade trees are components of all desert communities and they impact every resident. Trees provide multiple benefits including energy savings, reduced stormwater run-off, improved air quality including reduced CO₂ emissions, and much more.

A tree and shade plan is a roadmap for creating a healthier, more livable and prosperous desert city. As we deal with issues such as climate change, the role of trees and shade in the urban realm will become increasingly important.

Agenda?

To view the preliminary workshop agenda, go to <http://sustainablecities.asu.edu/news>. Stay tuned for more details on the workshop and CEU/PDU opportunities.

Why Attend?

Having a tree and shade plan in place will provide the greatest impact and guidance for long-term community forest management.

This half-day workshop will provide you and your community with an enhanced understanding of a tree and shade plan by providing management tools, success stories, challenges and available resources.

For questions and/or sponsorship details, please contact Anne Reichman, Program Manager for ASU's Sustainable Cities Network at anne.reichman@asu.edu/480-965-2168.

Funds for this project were provided by the Urban and Community Forestry – Community Challenge Grant Program through the State of Arizona Forestry Division – Urban & Community Forestry and the U.S. Forest Service.
