

The Decision Center for a Desert City (DCDC) at Arizona State University and Arizona Project WET - Water Resources Research Center and Maricopa County Cooperative Extension - University of Arizona present an

ADVANCED WATER EDUCATION WORKSHOP

Join us to enhance your knowledge of riparian systems, created wetlands and ecosystem management. Specific areas to be addressed as they relate to this topic include:

- What are riparian system functions?
- What is the value of sustaining natural riparian systems?
- How are ecosystems managed?
- How do created wetlands and riparian systems fit into the water resources picture?

Explore these and other themes as you meet researchers from ASU and U of A, local water and science experts, and adapt materials to enhance your current water education programs.

WHEN:

July 18 – 19, 2012
9:00a.m. – 4:00 p.m. daily

WHERE:

Arizona State University,
Decision Center for a Desert City
