

Eco-Loco Arizona Renewable Energy Conference

Friday, September 7th, 2012 9 AM to 4 PM

Keynote Speaker

Ms. Leisa Brug

DIRECTOR OF THE GOVERNOR'S OFFICE OF ENERGY POLICY

Renewable Energy projects are being implemented across the state, but many communities lack the capacity or “know-how” to initiate projects that would benefit them. The Arizona Renewable Energy Conference provides an opportunity for all communities to learn how to take the first steps to initiating renewable energy and energy saving programs for themselves and their citizens.

Sessions at this conference are targeted to getting decision-makers the information they need to move forward with programs that are available for cities, towns, and counties all across Arizona. Speakers will talk about programs available through Utilities, the State of Arizona, and federal sources. The Arizona Governor's Office of Energy Policy, ASU's Sustainable Cities Network and other partners will provide updates and additional information on the Arizona Rooftop Challenge, which will benefit all communities across Arizona. Learn how to access staff and other resources to help you maximize the incentives and programs available, and how to facilitate the all-important Public-Private Partnerships that make renewable energy projects feasible when staffing is lean and budgets are even leaner.

The Conference is being held in the new award winning Library and College Building, 7401 E. Civic Cir, Prescott Valley, AZ. The cost is \$10 per person –including a box lunch from Sourdough Country Deli and continental breakfast provided by Trader Joes.

Join us for the Eco-loco Festival Saturday, September 8
