cHarette
design & community
A charrette refers to an intensive, multi-disciplinary design workshop process designed to facilitate open discussion and engagement between major stakeholders, community members, and design and planning professionals of a development project. Using a variety of visual displays and models, the charrette team works together to find design and community solutions that will result in a clear, detailed, realistic vision for future development.
Introduction | process |

**charette process**

1. Charrette-Ready & Preparation
   1. People-ready
   2. Information-ready

2. Design Charrette
   1. Multiple stakeholders
   2. Small groups
   3. Hands-on
   4. Sharing ideas in presentation

3. Implementation
area of interest

- The area with the Arizona Canal on the south; North Mountain Preserve on the north; & 7th street and 19th street on the east and west boundaries

- We as a group need to identify community-driven and inspired ways to create a healthy community in which to live and work and play.

- Icons: will represent your desires, vision and solutions.

- **Asian**: 1045.01, 1045.02
the use of icons

These images help us to represent the activities and experiences that the community values.

Situating them on the map allows us to visualize opportunities for experiencing them in place.
Information gathering
Charrette the design
Design
Action & implementation
Break into two groups

- Charrette group
- Observer group

Undertake a “slice” of the charrette process

Reflect & evaluate how it can be modified or used in your communities
Thank you
