

## Urban Gardens Talk & Tour: Landscaping Revisited: Elegant – Edible – Sustainable

### Justin Rohner

*CEO and Founder, Agriscaping*

Having started working professionally in landscaping at just 9 years old at a local golf course, Justin Rohner has always been a bit of an innovator, an artist, and an entrepreneur. Justin was recently named one of Arizona's Top Entrepreneurs under 35 by the *Arizona Republic* for his work improving local food access and sustainability through agriscaping.com.

In this talk Justin will explore the growing innovations in transforming traditionally consumptive yards and landscapes into beautifully productive parks and properties that reduce waste, feed the local economy, create jobs, and put healthy fresh food within arm's reach.

**Tuesday, September 22, 2015**  
**7:00 p.m. lecture begins**
