

## Comedy, Economics, and Climate Change

### Yoram Bauman

*Environmental Economist, Stand-up Comedian*

Back by popular demand, Bauman, the “world’s first and only stand-up economist,” returns to ASU to offer a funny overview of climate science, predictions, and policy based on the latest IPCC report.

Bauman holds a PhD in economics and has become an ardent voice on the environmental economics front and specifically on carbon taxes and cap and trade. He has appeared in *TIME Magazine* and on PBS and NPR, and is the co-author of the two-volume *Cartoon Introduction to Economics*. He is a carbon tax Fellow at Sightline Institute, where he co-authored *Tax Shift* with Alan Durning.

**Tuesday, September 30, 2014**  
**12:00 - 1:30 p.m.**
