

School of Sustainability Graduate Culminating Experience Sharing Permissions Agreement Form

LIBRARY REPOSITORY SYSTEM

The [ASU Digital Repository](#) (ASU-DR) provides a place to collect, preserve, and discover the creative and scholarly output from ASU faculty, research partners, staff and students. The School of Sustainability (SOS) has its own collection in the ASU-DR for graduate students' culminating experience papers. Adding your paper to the ASU-DR will benefit present and future researchers, and help future students by providing models of final projects. You are required to submit your project/ capstone deliverables or scientific paper to the collection.

Please note that the ASU-DR is an **Open** repository, which means that anyone will be able to view and download your project deliverables. By adding your deliverables to the ASU-DR, you retain copyright to your outputs, but grant Arizona State University a non-exclusive license to disseminate your work through the Digital Repository and to make copies for preservation purposes per the Terms of Deposit:

<https://repository.asu.edu/about/policies/terms-of-deposit>

If you have any concerns regarding making your work available in this manner please contact SOSGradAdvising@asu.edu.

To complete your part of the submission process please fill out electronically the fields below as they relate to your culminating experience. Also, other sections of this form may require completion from others (e.g., project partners) or in consultation with others (e.g., a discussion with your project or faculty advisor). Submit the completed form and an electronic copy of your executive summary and project deliverables (such as project report, presentations, education material, and/ or other media) to SOSGradAdvising@asu.edu.

Title:
Abstract:
Author(s):
Mentor(s):
Subject Tags/Keywords (enter at least 3 unique tags):
Number of Files Submitted:
Number of Pages (per item submitted):
Would you like to apply a Creative Commons license to your project (see https://creativecommons.org/licenses/)? If so, please place a check next to which one: <input type="checkbox"/> CC-BY <input type="checkbox"/> CC-BY-SA <input type="checkbox"/> CC-BY-ND <input type="checkbox"/> CC-BY-NC <input type="checkbox"/> CC-BY-NC-SA <input type="checkbox"/> CC-BY-NC-ND
Submission Date:

EMBARGO

Some papers need an embargo, which means they will have a delayed publication date in the library collection. This is common if the student is trying to publish their work. Please consult your project or faculty advisor as to whether or not your submissions need an embargo, and if so, for how long.

- No embargo needed 2-year embargo requested 4-year embargo requested

Embargo Comments (optional):

PROPRIETARY INFORMATION

Some materials contain proprietary information that cannot be shared. Contact your project partner to discuss if your executive summary and project report/deliverables (paper or other media) have proprietary information. You may wish to consult with your project or faculty advisor also. The project partner will need to fill out the section below to confirm approval of your materials being shared and to what extent. Project work, with proprietary or sensitive material redactions of more than 25% of the content, may be of limited value and should therefore be withheld from public view.

PROJECT PARTNER SECTION (TO BE COMPLETED BY THE PROJECT PARTNER)

With signing this form, the project partner, will give permission to make the student work available through the ASU Digital Repository System and through Sustainability Connect, which links back to the ASU-DR entry. Making the project deliverables available for public view does not allow copying this work, as building on the existing body of work requires the regular practice of crediting and referencing previous work.

Printed Name: _____

Signature: _____ Date: _____

Title: _____

Organization: _____

Phone Number: _____ Email: _____

Full permission: others can access the work through the ASU Digital Repository and view the work.

Limited Permission (provide details below): others can access the work through the ASU Digital Repository and view the work under the following conditions:

I do not give permission: others cannot access the work through the ASU Digital Repository and view the work.

PHOTOS AND COMPANY IMAGES:

I do give permission to publish the pictures, selected by the student, with me/our products and premises on it.

I do not give permission to publish the pictures, selected by the student, with me/our products and premises on it.

STUDENT ACKNOWLEDGEMENT SECTION

The decisions made in the above sections will determine how content is shared in Sustainability Connect, mirroring what is approved for the ASU Digital Repository collection. The executive summary will be published on Sustainability Connect with a link to the location in the ASU Digital Repository collection where the project report (paper) or other media is housed. If an embargo is in place, only the abstract will appear until the end of the embargo period. By signing below, you acknowledge and provide consent.
